**Subject:** RE: Files to FRC

---

In support of what Kit is saying here – files are easily retrieved from the federal records center. It's a good place to store files that are not currently active, including those that only went part way through the NEPA process but have been dormant for years. What we need from you is to take a look at the list and

- Identify any currently active projects that should be kept on the floor (e.g. Juneau Access and Knik Arm)
- Look to see if you have documents that should be included in these files before they go to FRC so the files will be as complete as possible and easily retrieved in entirety.

Again, these files are not being archived at this time, just stored off site.

Kit, thanks for your excellent work in managing these files and managing space in preparation for our move.

**Subject:** RE: Files to FRC

Please be advised - I am not asking your permission to send these files, we must continually send files to the FRC for storage to conserve our limited space here in Seattle. (soon to be even more limited with our move to the 20<sup>th</sup> floor)

The files on the list will be sent - we can retrieve them at any time.

They do not go into the archives until they have been in the FRC for 20 years - and then they send us a list and ask for confirmation of archiving.

Even after they are archived we can retrieve copies of the files.

So please, I would prefer to send complete files, if there are items you wish to keep for your personal use you can make copies before you send the documents to me.

Thanks for your support.

**Subject:** Files to FRC

Hi All~

Below is the list of files that I am going to pull and send to the Federal Records Center for storage.

I am only looking at the files on the shelf here in Seattle.

I would like to have the files complete and include anything you might have at your desk or in your office, before I send them to the FRC.

If you could please take a quick look and see if you have anything for any of these projects - it would be greatly appreciated.

I would like to have these all ready to go before December 20<sup>th</sup>.

Thanks much, *Kit*
